

Oaxaca

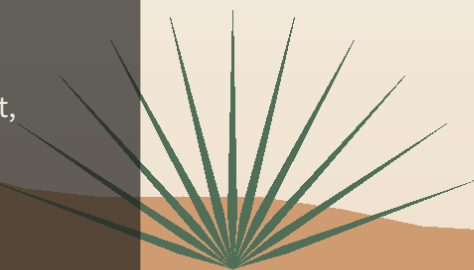

Weekend Travel Playbook

2 days - culture, nature, food, etc.

Weekend Travel Playbook

A reusable travel format for a two-day trip: experience-first, budget-aware, and map-driven.

双语旅行手册 / 可复用模板 / V2

不是攻略清单，而是一次旅行设计。

This playbook is designed to help a traveler understand Oaxaca through a few high-quality experiences, rather than overpaying for every tour or rushing through every landmark.

01

Keep the irreplaceable

保留已经预订的 Hierve el Agua 一日团，因为它把自然、Mitla、织布和 Mezcal 串在一起，性价比高且不可替代。

Keep the booked Hierve el Agua day tour because it combines nature, Mitla, textile craft, and mezcal in one efficient day.

02

Skip low-value tours

第二天不再推荐昂贵的半日考古团或 Food Tour；你在墨西哥城之后还能去 Teotihuacan，而市场美食更适合自探索。

Skip the expensive half-day archaeology and food tours. Teotihuacan can cover the big-ruins need later, and Oaxaca markets are better explored freely.

03

Spend where it matters

把预算留给真正瓦哈卡独有的体验：Mezcal 品鉴、手工艺、咖啡、市场和城市步行。

Spend on Oaxaca-specific experiences: mezcal tasting, crafts, coffee, markets, and walkable urban culture.

Two days, one clear logic.

Fri night

ADO overnight bus

Arrive early and save daytime for Oaxaca.

Sat

Booked tour: Herve + Mitla + Textile + Mezcal

The high-value, irreplaceable day.

Sat night

Historic center + light dinner + mezcal bar

Keep it relaxed after a long tour day.

Sun

Self-guided urban exploration

Santo Domingo -> Museum -> Garden ->

Coffee -> Markets -> Mezcal -> ADO.

Sun night

Return to CDMX

Use the QR links for live bus and route navigation.

Best use of money / 钱花在哪里最值

Herve tour

Mezcal tasting

Coffee break

Craft shopping

Save your money / 可以省掉

Food tour

Monte Albán tour

Taxi package

This version is deliberately budget-aware: it protects the must-do tour and replaces low-value paid activities with stronger self-guided exploration.

先建立认知地图，再开始旅行。

Use this page as the logic behind the itinerary. Every stop should answer one question: what does this reveal about Oaxaca?

Oaxaca mental model

A travel playbook should help you understand the city, not only visit places.

Civilization

Mitla -> Museum

Zapotec / Mixtec continuity

Nature

Hierve el Agua

Landscape shapes settlement

Craft

Textile / barro / alebrije

Tradition as living industry

Food

Markets / mole / chocolate

Everyday culture, not a checklist

Mezcal

Agave -> roasting -> distilling

Agriculture, terroir, identity

第一天的 tour 负责“外部世界”：自然地貌、遗址、织布村和 Mezcal 生产。

Day one covers the outside world: landscape, ruins, textile village, and mezcal production.

第二天的自探索负责“城市内部”：宗教建筑、博物馆、市场、咖啡和当代生活。

Day two covers the inside of the city: church, museum, markets, coffee, and contemporary urban life.

Hierve el Agua day tour is still the right anchor.

What you will do / 你会做什么

- Hierve el Agua: petrified waterfall, mineral pools, optional short walk.
- Mitla: religious and funerary archaeological site.
- Teotitlán del Valle: textile village and natural dye demonstration.
- Mezcal palenque: agave, roasting, milling, fermentation, distillation, tasting.
- Arbol del Tule: quick heritage stop.

Physical level / 体力要求

整体体力要求低到中等。真正需要走路的是 Hierve el Agua，可选择只在上方观景和泡池边停留，不必走完整徒步。

Low to moderate. The only real walking is at Hierve el Agua, and you can skip the longer loop if you prefer.

Why it matters / 为什么值得

它不是单纯景点拼盘，而是把自然、宗教遗址、传统手工艺和龙舌兰产业放在同一天理解。

It is not just a checklist; it connects landscape, archaeology, craft, and agave culture in one day.

Tour-day mindset

不要把这一天当成“拍石化瀑布照片”。更好的观察方式是：瓦哈卡的自然条件如何影响聚落、手工艺和农业？为什么 Mezcal 是一种产业，而不仅仅是一杯酒？

Do not treat it as only a waterfall photo stop. Ask: how did Oaxaca's landscape shape settlements, crafts, and agriculture? Why is mezcal an industry and identity, not just a drink?

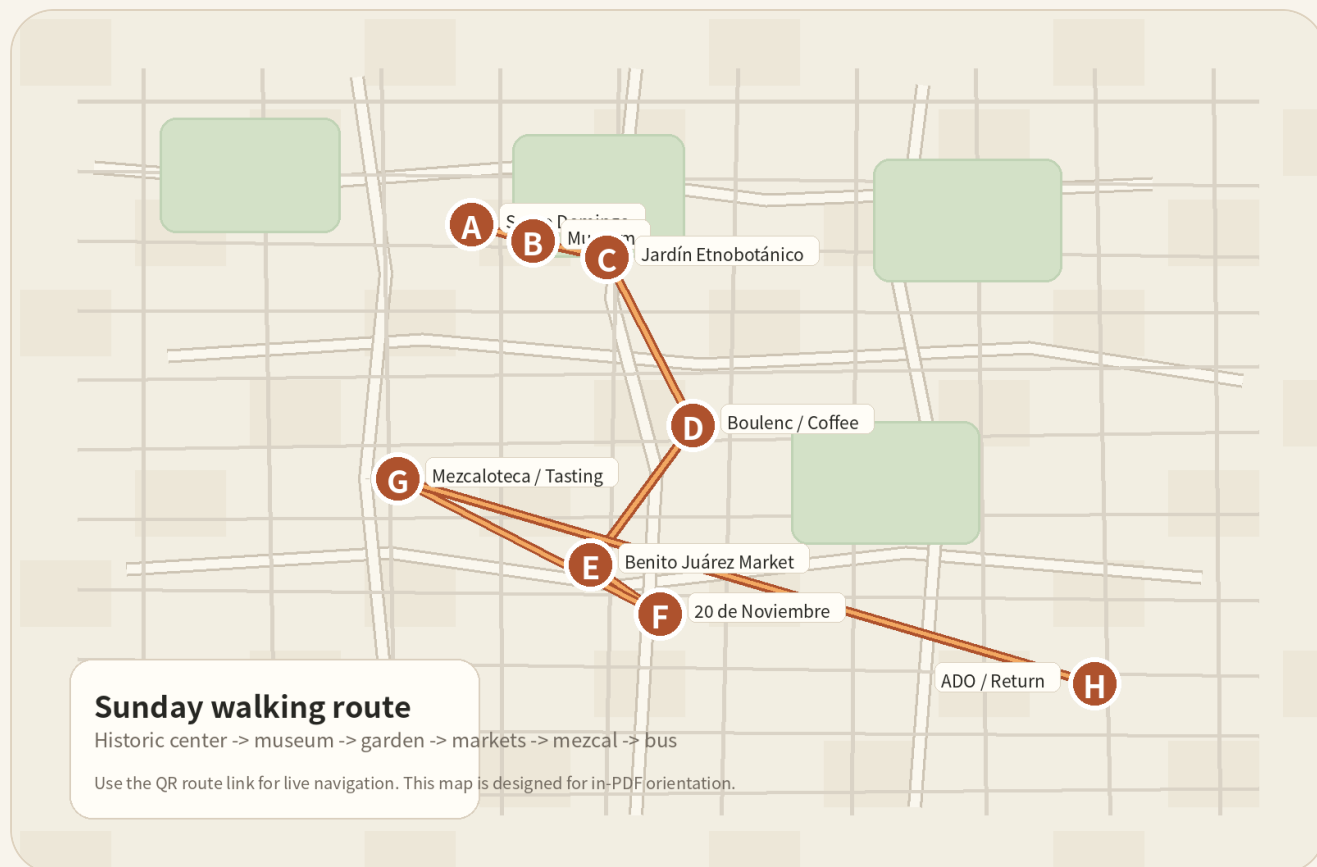

SATURDAY TIMELINE

Experience timeline, not just stops.

Approx.	Stop	What to notice	Decision tip
07:30-08:30	Leave Oaxaca	Use the ride to sleep or review the mental model.	Bring water, cash, sunscreen.
Morning	Tule + Textile village	Natural dye, wool, cochineal red, weaving as local industry.	Shop only if quality feels right; no pressure.
Late morning	Mitla	Geometric stonework, tombs, ceremonial space.	This partly replaces Monte Albán for this short trip.
Afternoon	Hierve el Agua	Mineral pools and petrified waterfall views.	Short walk optional; do not force a long hike.
Late afternoon	Mezcal distillery	Agave varieties, roasting pit, fermentation, distillation.	Taste slowly; compare varieties rather than drinking volume.
Evening	Back to Oaxaca	Keep dinner simple and walk Santo Domingo if energy allows.	No extra tour tonight.

A self-guided day with a real walking route.

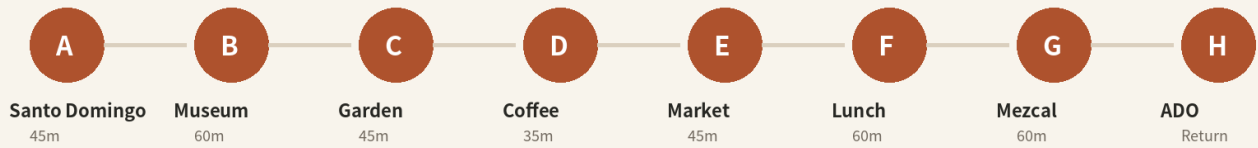

This route is designed to be walkable, low-cost, and culturally dense. Use the QR for live Google Maps navigation.

扫描打开 Google Maps 路线：Santo Domingo -> Museum -> Garden -> Boulenc -> Markets -> Mezcaloteca -> ADO。

Scan for the live route: Santo Domingo -> Museum -> Garden -> Boulenc -> Markets -> Mezcaloteca -> ADO.

Walking order for the day.

Best rhythm / 最舒服节奏

- Start around 9:00 so the city is awake but not too hot.
- Put museum/garden first; markets and food are better late morning to early afternoon.
- Keep mezcal tasting optional and only do it if time and energy allow.
- Leave a buffer before ADO. Do not end the day far from the station.

Fallback if tired / 如果累了

只保留 Santo Domingo + Museum + 20 de Noviembre + Coffee，然后直接回酒店/车站。这仍然是一个完整的瓦哈卡城市体验。

Keep only Santo Domingo + Museum + 20 de Noviembre + coffee, then go back to hotel/station. It is still a complete Oaxaca urban experience.

Where to spend attention.

STOP A

Santo Domingo

45 min

殖民时期建筑核心，适合周日上午第一站。

Oaxaca's strongest architectural anchor; start here before the city gets crowded.

Don't miss: Do not miss: facade, interior, plaza, morning light.

STOP B

Museum of Cultures

60-75 min

把前一天看到的 Mitla、Zapotec、Mixtec 线索串起来。

Use it to connect the previous day's ruins and indigenous cultures.

Don't miss: Focus: Zapotec/Mixtec rooms; do not try to read everything.

Where to spend attention.

STOP C

Ethnobotanical Garden

45-60 min

理解瓦哈卡植物、龙舌兰、干旱环境与生活方式的关系。

A compact way to understand plants, agave, dryness, and local adaptation.

Don't miss: Check entry/tour availability; skip if timing is awkward.

STOP D

Boulenc / Coffee break

35-45 min

路线中段休息点，不是为了打卡，是为了恢复体力。

A strategic rest stop in the route, not just a popular cafe.

Don't miss: Order light; keep stomach space for markets.

Where to spend attention.

STOP E-F

Markets

75-90 min

自己探索比 Food Tour 更适合你：更便宜、更自由、更能观察日常生活。

Better self-guided than paid food tour: cheaper, freer, more observational.

Don't miss: Try: chocolate, tlayuda, mole, smoke hall, agua fresca.

STOP G

Mezcaloteca / tasting

60 min

如果要花钱，优先花在知识密度高的 Mezcal 品鉴上。

If you spend extra money, spend it on a high-density mezcal tasting.

Don't miss: Choose tasting over cocktail; ask about agave varieties.

How to choose if time changes.

Available time	Best plan	Why	Skip
2 hours	Santo Domingo + coffee	Most efficient taste of the historic center.	Museum, garden, mezcal.
Half day	Santo Domingo + Museum + Markets	Best culture-to-cost ratio.	Paid food tour, Monte Albán tour.
Full Sunday	Full walking route + optional mezcal tasting	Urban culture, food, and craft without paying another tour price.	Any long transfer outside the city.
Very tired	Markets + one coffee + ADO buffer	Still meaningful and low effort.	Everything else.

Why skip Monte Albán this time?

不是因为 Monte Albán 不重要，而是因为你的时间短、预算有限、你之后在墨西哥城可以去 Teotihuacan。这个周末更值得把第二天留给瓦哈卡城市本身。

Not because Monte Albán is unimportant, but because time and budget are limited, and Teotihuacan can later satisfy the major-ruins experience near CDMX. This Sunday is better spent inside Oaxaca city.

Spend for uniqueness, save on replaceable tours.

Worth every peso

- **Herve day tour:** hard to replace independently in two days.
- **Mezcal tasting:** knowledge-dense and uniquely Oaxacan.
- **Good coffee/rest stop:** protects your energy and rhythm.
- **Craft shopping:** only if you actually like the piece.

Save your money

- **Food tour:** expensive relative to self-guided market eating.
- **Monte Albán half-day tour:** expensive for this specific weekend.
- **Taxi package:** not needed for Sunday historic center.
- **Too many mezcal cocktails:** tasting teaches more.

The best travel budget is not the cheapest plan. It is the plan where each paid item is hard to replace.

QUICK LINKS

Scan, open, go.

ADO

Bus booking and return check.

Viator

Tour reference only.

GetYourGuide

Backup tour platform.

Sunday Route

Live Google Maps route.

Markets

Benito Juárez & 20 de
Noviembre.

Mezcaloteca

Optional tasting.

A reusable workflow for any city.

This is the transferable part: how another traveler can work with AI to create a travel playbook that is not generic.

- 1** **Give constraints first**
Dates, budget, energy level, must-book items, dislikes, language constraints.
- 2** **Ask AI to build the option pool**
Tours, workshops, museums, food, neighborhoods, transport.
- 3** **Challenge the first answer**
Ask: is this worth the price? Is there a cheaper self-guided substitute?
- 4** **Separate must-do from nice-to-have**
Rank by uniqueness, cost, logistics, and personal fit.
- 5** **Convert into a route**
Not just links: ask for map, walking order, buffers, fallback plan.
- 6** **Ask for productization**
PDF, spot cards, QR codes, decision matrix, budget logic, reflection prompts.

Prompts that produced this playbook.

Research prompt

I have [dates] in [city]. Please search current options and list tours, self-guided routes, workshops, food, museums, and transport. Consider budget, language, safety, and whether each experience is replaceable elsewhere.

Challenge prompt

Re-evaluate from value-for-money. Which paid tours are overpriced? Which can be replaced by self-guided exploration? Compare uniqueness, cost, and logistics.

Route prompt

Turn the final plan into a walkable route. Include real map, stop order, walking time, Google Maps links, QR codes, and fallback if tired.

Playbook prompt

Create a bilingual Travel Playbook PDF, not a generic itinerary. Include mental model, decision matrix, budget logic, spot cards, maps, and how-to guide.

Use this to review any future playbook.

Layer	Checklist
Information	Timeline, booking links, language options, physical level, transport, opening/availability caveats.
Experience	What you will do, what to notice, why it matters, what to skip.
Decision	Must-do vs optional, cost/value, replaceability, fallback plans.
Map	Not only links: visible map, route order, walking time, QR code.
Design	Readable typography, enough white space, one idea per page, consistent visual hierarchy.
Reflection	Questions that help turn the trip into long-term knowledge.

After the trip, turn experience into memory.

Oaxaca as culture

这趟旅行里，哪个体验最能代表 Oaxaca，而不是泛泛的墨西哥？为什么？

Which experience felt most specifically Oaxacan, not just Mexican in general? Why?

Mezcal as industry

Mezcal 对你来说还是“酒”吗？还是更像农业、工艺和地方身份的结合？

Does mezcal still feel like just a drink, or more like agriculture, craft, and local identity combined?

Tour vs self-guided

第一天报团和第二天自探索分别带来了什么价值？以后旅行时，哪些内容适合花钱，哪些适合自己走？

What did the paid tour and self-guided day each offer? In future trips, what deserves money and what deserves your own exploration?

Memory

如果你只能把 Oaxaca 记成三个关键词，你会选什么？

If you could remember Oaxaca in only three keywords, what would they be?

The reusable Travel Playbook format.

Core pages

- Cover
- Weekend at a glance
- Why this city
- Mental model
- Day-by-day plan
- Route map
- Spot cards
- Budget logic
- Quick links

Advanced pages

- Decision matrix
- Paid vs self-guided logic
- Local knowledge
- Prompt library
- AI collaboration checklist
- Reflection prompts

A strong playbook does not tell everyone to travel the same way. It shows the logic, so each traveler can adapt.
